OVERRIDES

Force Add

Courses can be restricted to certain majors and/or schools. To override a restriction for a student who does not match the major or school, use the force add section of the override form. This override enrolls the student regardless of the school/major restrictions but will not exceed total size. A student is not guaranteed a seat if the course closes.

Oversubscription

Courses will close when the actual size equals the desired size. To override the size restriction, use the oversubscription section of the override form. This override enrolls the student regardless of the course size or status. Once the form is stamped and signed, the student is guaranteed a seat in the course and can register regardless of desired size or major/school restrictions.

Permission of Department

Departments can regulate course entry by individual approval. To grant this approval, use the permission of department section of the override form. If the department is stamping permission forms for more students than the desired size of the course, the department should contact the scheduling area
